

Luis Moya Tortosa

LMT Wines, El Yesal 2021

lmtwines.com

Under 900 bottles are made of this wine that comes from a 100-year-old vineyard site, planted in an amphitheatre in Tirapu just south of Pamplona. The Garnacha here offers a floral expression of the variety with gorgeous violet and rose alongside an explosion of red cherries and raspberry. Chalky tannins with some spice on the finish give this wine a fresh lift. It is light without being light on flavour and is charmingly rustic in the best sense of the word.

LMT Wines, Artaxo 2021

lmtwines.com

The 2021 Artaxo is pure Garnacha from two old vineyards in Artajona and Artazu that are organically farmed but not certified. It fermented with 15% full clusters and indigenous yeasts and matured in used 300- and 500-liter French oak barrels for 10 months. It has good ripeness at 14.9% alcohol while keeping a low pH and remarkable acidity. This is serious, harmonious and different, with lots of acid berry fruit. It's textured and telluric, mysterious and characterful, with a medium to full-bodied palate and volume but freshness. 2021 seems to be a very good vintage here. 1,200 bottles produced. It was bottled in February 2023.

No 2020 was produced.

LMT Wines, La Tapada 2021

lmtwines.com

The 2021 La Tapada was produced with Garnacha from an organically farmed (but not certified) 1.5-hectare 70-year-old vineyard in the village of Azagra, one of a handful of villages from Navarra that are included within Rioja, but it's sold without appellation of origin. It fermented with indigenous yeasts in stainless steel and Flextank and matured in used 225-liter oak barrels, Flextanks and glass demijohn for 12 months. It has good ripeness, 14.5% alcohol, good freshness and acidity and a paler, brighter color. I love the elegance here. The wine is fine-boned and fresh, with less alcohol and more acidity. It feels fresher.

6,000 bottles produced. It was bottled in March 2023.

LMT Wines, Korteta 2020

lmtwines.com

Luis Moya works with six parcels to produce this Garnacha that sees some oak (500L) as well as a little tinaja for around a year. The acidity is very typical of the northern parts of Navarra, direct and precise, and perfectly balances the concentration of the fruit. It's minty fresh and spicy with red fruits and some darker berries, and while it is inherently elegant, it is not overworked. Delightfully honest and repeatable!

94 pts — Beth Willard, Tim Atkin Navarra Report 2024

LMT Wines, Korteta 2020

lmtwines.com

The 2020 Korteta is a red blend of 92% Garnacha and 8% Graciano from six different vineyards where he makes wines like Artaxo, Ostoki, La Tapada or El Yesal. Here, Graciano makes the blend sharper and energetic. It's ripe without excess at 14.3% alcohol and has a low pH of 3.42 and good acidity. It fermented with 10% full clusters and matured in used 225- and 300-liter French oak barrels and some glass demijohns and small tinajas for 10 months. It's juicy and tender, with 'ne tannins, very pleasant. 3,000 bottles produced. It was bottled in November 2022.

LMT Wines, Cerro Amurdi Clarete 2022

lmtwines.com

Now for something different... A very pale pink clarete produced mostly from Pinot Noir (60%) and Garnacha (30%) with Riesling, Garnacha Blanca and Chardonnay making up the rest of the blend. Very minimalist winemaking – direct press with fermentation in stainless steel – results in this delightful interpretation of an unusual field blend from a vineyard in Cizur, just to the south of Pamplona. Grapefruit and rhubarb with some orange peel zest make this a lively and pretty pink.

Drink 2024-2026

WA

91

There are 1.2 hectares of « exotic » varieties in Cerro Amurdi, close to his winery, so he made a quaffable « clarete, » the 2022 Cerro Amurdi Clarete.

It's a blend of around 60% Pinot Noir, 30% Garnacha and 10% white varieties (Verdejo, Chardonnay, Riesling) that fermented after the direct pressing

of the bunches and was bottled after four months with the lees in stainless steel. It has 13% alcohol and very good freshness. It has a bright salmon color and is clean and tasty, with some austerity and a serious, dry palate with a slightly reductive character that, to me, makes it much more serious.

600 bottles were filled in March 2023.

Drink 2023-2026.

Pago Aylés – The only Pago estate in Aragón

**TA/BW****96****CUESTA DEL HERRERO 2022** (Vino de Pago)

50% Tempranillo, 30% Garnacha, 12% Merlot, 8% Cabernet Sauvignon

Âge des vignes: plus de 25 ans

Altitude: 650 m

Sols: argilo-calcaires

Climat: continental extrême

Viticulture/ Vinification:

Ayant un cycle de maturation très similaire, le merlot et le tempranillo sont fermentés ensemble. La même chose est répétée plus tardivement avec la garnacha et le cabernet sauvignon.

La fermentation alcoolique se produit grâce aux levures indigènes sous une température contrôlée.

La fermentation malolactique a lieu en fûts de chêne français d'Allier de deuxième année, et l'élevage se poursuit pendant 6 mois.

Certifié Bio.

Alcool 14.4%

SR 0.6 g/L

AT 5.5 g/L

pH 3.6

SO₂ Libre 22 mg/L

TA/BW**94****SENDA DE LEÑADORES 2020** (Vino de Pago)

55% Garnacha, 30% Tempranillo, 10% Merlot, 5% Cabernet Sauvignon

Âge des vignes: plus de 25 ans

Altitude: 650 m

Sols: argilo-calcaires, mais plus riche en argile

Viticulture/ Vinification:

La sécheresse de la parcelle, due en partie au climat continental extrême, donne des vins puissamment structurés. Des expérimentations récentes ont permis à l'équipe de Pago Aylés de constater (à leur surprise) qu'un rendement plus élevé apporte une qualité supérieure grâce à un meilleur équilibre foliaire et une maturation plus lente. Comme pour les autres vins, les vendanges nocturnes permettent de profiter de la variation diurne de température pour récolter le raisin et le transporter dans le chai dans des conditions optimales.

La fermentation alcoolique se produit grâce aux levures indigènes sous une température contrôlée. Le vin subit une fermentation malolactique en fûts de 225 litres français de deuxième année suivie d'un élevage de 10 mois.

Alcool 14.5%

SR 1.9 g/L

AT 5.6 g/L

pH 3.6

SO₂ Libre 59 mg/L

Pago de Ayles, L 2022

Vino de Pago

Le premier vin rosé de Pago de la région d'Aragón.

Un rosé différent, composé de 70% grenache et 30% cabernet sauvignon.

Vendanges nocturnes. Macération préfermentaire à froid.
Fermentation à température contrôlée en fûts de chêne.
Pas de fermentation malolactique afin de préserver l'acidité et la fraîcheur. Élevage de 3 mois en fûts.

Alcool 13.6%; SR 0.3 g/L; AT 5.9 g/L; pH 3.2; SO₂ libre 55 mg/L
Certifié biologique.

Millésime 2019 en inventaire

PAGO AYLÉS SYRAH SERENDIPIA 2021

A pure syrah from a small selection made only in exceptional vintages. The nose shows ferric, blood-like aromas, with bay leaves, pleasant meaty aromas and hints of violets. The palate is fresh and juicy, with a clean, transparent profile. Drink now or hold.

IMMORTALIS MONASTRELL 2022 (D.O. BULLAS)

A deep, dark monastrell with a timid nose of dark fruit and a subtle note of asphalt. The palate is medium- to full-bodied with a pleasant, silky, juicy texture. Really balanced for a wine from this region. Drink now.

OLD VINES

IMMORTALIS GARNACHA 2022 (D.O. CALATAYUD)

This is from a single vineyard planted on clay soils in the impressive Armantes in lieu-dit in Calatayud. This has a timid nose of dried herbs and a combination of red and dark fruit. The palate is medium- to full-bodied and elegant, with a succulent, juicy style. From vines that are around 80 years old. Fermented and aged in cement for around eight months. Drink now or hold.

IMMORTALIS GARNACHA BLANCA 2023 (D.O. TERRA ALTA)

A nervy expression of garnacha blanca showing mineral refinement and notes of white stone fruit and melon. Chalky texture on the palate, with less fruit than most, fresh supple acidity and a linear, medium-long finish. Delicious now.
